NITIC
National Information Technology Innovation Center

Faculty AI Job Shadow Initiative

Help Shape the Future of IT Education

The National IT Innovation Center (NITIC), the NSF ATE national center for Information Technology, invites companies using AI to host community college faculty for short-term job shadowing. Your participation helps educators bring real-world insights into the classroom, preparing students for tomorrow's workforce.

Program Snapshot

- **Duration:** 80 hours total
- **Timeline:** May 1 - August 31, 2026
- **Format:** On-site preferred; hybrid or remote options allowed
- **Cost:** No cost to the company; faculty receive a stipend from NITIC
- **Activities:** Observation, team meetings, project reviews, curriculum discussions

Company Role

- Provide opportunities for faculty to observe AI-related work
- Share insights on AI integration in your business
- Sign off on completion paperwork at the end of the experience

(No compensation, employee access, or formal onboarding required)
